Chicagoland Spring New Construction Status Update

March 11, 2013

Chicago Agent contacted many Chicagoland developers and have provided all the new property information we received to provide you with listings in the city and suburbs to help determine which newly constructed home is right for your clients. The following is organized by city, and you'll find the developer, address, housing type, price range, sales contact, total units and the number of units sold for each property.

Please keep in mind that all of the following information was submitted to us and that information is always subject to change. It's a good idea to check in with the sales contact to make sure you get the most up-to-date information.

Click on each thumbnail to see a larger version of the grid.
