Des Plaines: \$275,000

The hardwood floors in this Coventry model are optional, but Lexington Homes does a pretty good job of blending some style and function. For instance, by default, all models have lush Mohawk carpeting and Moen faucets, brushed nickel fixtures by Progress and 9-foot ceilings. Throw in the two-car garage and you have a suburban set piece.

We do notice this: in the suburbs, all the kitchens are bigger. See those cabinets? They're 42-inches long, made by the very fashionable company Aristokrafts. You'll know you need them when you try to store a tall chef's kitchen-style fresh peppercorn grinder.

Their slogan is “convenience and serenity in the same place.” The Coventry model is two stories, with a master bedroom suite on the top floor, a dining room and living room on the first floor, a 12’7” x 14’ flex room on the lower level. Decorate accordingly.
